## How does one use the site?

Customer Support - 2019-08-08 - in WhatsYourPrice

In order to set up a date and send messages with members, you first need an accepted offer with that user. Once both sides have accepted an offer, the Generous member will be able to unlock the ability to communicate (send messages) using credits. Credits can be purchased by selecting the "Buy Credits" option after clicking your username in the top right-hand corner of your account.

Attractive members will be able to send messages as soon as the date is accepted.

Please note that the Generous member will pay the Attractive member regardless of who made the offer.

WhatsYourPrice is just a platform to establish the terms of the date, and does not assist in the exchange of payment, nor do we guarantee that a date will take place. We have found that it is best to exchange the money you agreed on in person. Generally, the payment for the date is given at the end in cash, but sometimes members can decide to provide half of it at the beginning and half of it towards the end. The Generous member is also expected to pay both the agreed-upon amount as well as any date expenses such as dinner.
