Unlocking Private Photos

Customer Support - 2019-07-16 - in Photos

Private photos will only be shown to users that you interact with. A user will only see your private photos if you:

- Make them an Offer
- Wink at them
- Make them a Counter-Offer
- Respond to a Wink with a Wink

Photo permissions can also be revoked through the following steps:

Click the profile of the user you wish to remove permissions for.

Click the three dots (...) next to their profile towards the top, then select Block.
